MY PROFILE

I am Sebastian Artunduaga Meñaca, a mechanical engineer and web developer with solid experience in creating dynamic and interactive applications. Specialized in JavaScript, I master frontend development using React to build efficient, scalable user interfaces with a fluid experience.

EXPERIENCE

POKEDEX API
developed in React

Application that turns you into a pokemon master and shows your cards of different pokemons (www.pokedex.com)

USER CRUD
developed in React

An application where users can register, edit and delete their registration (www.cruduser.com)

WEATHER APP
developed in React

An application that shows the weather status in the location you are in (www.apiclima.com)
